

QUALITY & ENVIRONMENTAL POLICY

In our development, sales and service of Embedded computer systems, Sensor and machine vision and Industrial data communication we will always be a true Team Player and work with continuous improvement.

We will meet and exceed our customers' expectations to enable their world class application.

We will engage our employees with recognition, empowerment and the enhancement of skills and knowledge.

Our relationship with customers, partners and suppliers is key to optimized performance and environmental impact.

We are committed to minimizing the impact of our activities on the environment and to minimize toxic emissions through choosing sustainable materials, minimize transportation pollution and optimize packaging waste.

We complete our tasks in accordance with the requirements defined by our customers and other interested parties and the laws under which we operate, e.g. information security requirements.
